Report Date: 12/14/22

Product Description: UiPath Insights is an application that serves as a platform for data modeling and analytics using a combination of available business metrics and operational insights. Contact Information: Contact sales: https://www.uipath.com/company/contact-us

Notes: Specific user scenarios were tested to ensure critical user paths were included in the VPAT. All application content was not tested, but rather a crucial sampling of content was used for test cases. As the product is available in Automation Cloud, Automation Suite and as Standalone, the product User Interface is common for all these types, so this VPAT is covering for all versions available.

UiPath Templates, Insights Configurations, and Dashboard Creation, configure a Cross-Tenant Dashboard, and Attended Reporting.

Evaluation Methods Used: New Edition's Test Process for WCAG 2.1 AA was used (based on Trusted Tester v5, WCAG 2.1 A-AA, and Section 508 Web testing). The following testing tools were used on a Windows 10 desktop: Accessibility Insights for Windows v1.1, Color Contrast Analyzer, text spacing bookmarklet, NVDA v2021, external keyboard, and ANDI.

Testing was performed by certified Trusted Testers (v5) from New Editions Consulting, Inc.
